About Me

Junior Full Stack Developer with a Diploma in Web Development from the (fictional) Northbridge Coding Academy.

I bring eight years in hospitality and event management, so I'm used to fast-moving teams, demanding customers and staying calm when things go sideways. Now I put that same care into building clean, accessible web apps.

I work with HTML, CSS, JavaScript, TypeScript, Python, React and Django, plus SQL and NoSQL databases. I use AI tools every day for debugging, code review and prototyping, and I test and own everything I ship.

Open to junior full stack & frontend roles

Skills

Technologies

HTML5 / CSS3 Intermediate | JavaScript Intermediate | TypeScript Beginner | Python Intermediate

Frameworks & Databases

React Intermediate | Django / REST Framework Beginner | PostgreSQL Beginner | Tailwind CSS Intermediate

AI & Modern Development Practices

I use AI assistants daily for code generation, debugging and architecture planning, which helps me ship features faster while keeping quality high.

Prompt Engineering | AI-Assisted Development | Testing | Rapid Prototyping

Experience & Education

Diploma in Web Development

2025 – 2026

Northbridge Coding Academy • Online

Example qualification for demo purposes

Events Coordinator

Harbourside Events Co. • Manchester, UK

2021 – Present

- Planned and ran 120+ corporate and private events a year with budgets up to £40k.
- Built a simple booking spreadsheet-to-web workflow that cut admin time by 30%.
- Led teams of up to 15 staff on event days.

Restaurant Supervisor

The Copper Kettle • Leeds, UK

2017 – 2021

- Supervised front-of-house for a 90-cover restaurant.
- Trained new staff and introduced a digital rota system.

BA (Hons) Business Management

University of Example • UK

2014 – 2017

Featured Projects

Plate Planner

Full-Stack Project • 2026

Meal-planning web app with user accounts, saved recipes and an auto-generated shopping list.

React | Django REST | PostgreSQL

Event Check-in

Personal Project • 2025

Mobile-first PWA that checks guests in by scanning QR tickets, working offline at venues with poor signal.

JavaScript | PWA | IndexedDB

Corner Café Website

Practice Project • 2025

Responsive single-page site for a fictional café with menu, opening hours and a contact form.

HTML5 | CSS3 | JavaScript

Budget Buddy

Python Project • 2025

Command-line budgeting tool that imports bank CSVs, categorises spending and prints monthly reports.

Python | pandas | CLI
